Continuation Speet (PTO-303)

Application No. 09/850,064

Continuation of 2. NOTE: The proposed changes would limit the claim so that it was only one side of the spacer tubing which was provided with the groove wherein the one side was on the inner surface of the spacer visible through the glass. Such a limitation would require further search and/or consideration especially in light of the admitted prior art where it was known to use metal spacer frames wherein the inside of the frame had an unsightly bead therein.
